SETA ENTERPRISE SOFTWARE

PRAXIS SKILLS-WEB

PRAXIS SKILLS-WEB

SETA MANAGEMENT INFO SYSTEM

Streamline SETA processes with Skills-Web

www.praxis.co.za

Introduction

Praxis Skills-Web is a modern web-enabled system that supports the core business processes of a SETA. The software can be run in-house or in the cloud. You can own the software and it can be adapted to your specific needs.

USE SKILLS-WEB TO....

Collect and account for levies	Collect grant applications and pay grants	Collect WSP data in a number of ways
Register and communicate with your SDFs, assessors, moderators and training providers	Manage enrolments and achievements	Have a projects view of skills development activities
Interface with SAQA, QCTO and DHET	Interface with your accounting system	Business Intelligence with dashboards, pivots, graphs and ad-hoc extracts

- Supports Public Finance Management Act and Skills Development Act: regulations
- Includes a BI system with dashboards, pivot tables and ad-hoc extracts covering current and legacy data
- Facilitates accurate and timeous grant payments
- Includes an portal for employers, learners, assessors, moderators and SDFs to access information and load new data
- Integrates with a single call-logging or ticketing system for your and our help desks.
- Provides electronic document management for uploaded supporting documents
- Multi-dimensional workflow-based approval process
- Supports transparency with regards to the grants payment processes
- Accessible from any web browser and supports mobile access
- Simple and standard interface for all staff
- Microsoft Dynamics, Sage Evolution and other accounting systems integration
- You can own the software and configure and adapt the software yourself
- On-site or hosted solution
